IMPERIAL GRAND CHAMPION MALE

1 IMP GR CH Haworth IMP GR CH DIZZIIPAWS BRUCE Seal mitted

A super big showy boy and a real gentle giant his paws were needed the whole time and he loved a cuddle and I enjoyed of minute of handling him. A long muscular body with a long silky soft well prepared coat. Nice broad chest supported by medium length legs which were of good bone with large round and tufted paws. Long bushy tail slightly tapered at the tip and reaching to the shoulder blades. Broad head with flat plane between sized ears that had slight tilt forward and were well furnished. Well developed cheeks and muzzle with firm chin and good bite. Large well opened eyes with slightly oblique set and of good blue colour. Medium length nose showing gentle dip to profile head framed by long ruff. Nice seal points contrast.

This was another gentle well manager boy whose coat was a little shorter than the winner. Who was clean and nicely presented. Nice broad head. Ears of medium size with slight tilt forward and well furnished, flat plane between the ears. Large well opened slightly oblique set eyes which could have been a shade deeper blue. Medium length nose showing gentle dip to the profile with pink nose leather... Nice firm chin with good bite. A nicely balanced V commencing at forehead and covering nose whisker pads and chin. White back legs to the level of the under body Front legs all white. Silky soft bluish white coat with some areas of white. Long tail which tapered at tip and reached his shoulder blades.

IMPERIAL GRAND CHAMPION FEMALE

1 IMP GR CH WITHELD Fitten GR CH FINEARTE ZEPHYR ROSE Blue bi colour

I very attractive girl who I would have liked to be a little larger for her age but she was of good weight. Nice head with flat plane between medium sized ears which had slight tilt forward and were well furnished. Eyes were a little deep set but of lovely blue colour. Profile shows slight dip on medium length nose. Well developed cheeks and muzzle with firm chin and good bite. A nicely balanced white V. All limbs were white. Tail long and tapering at tip and balanced to her body. My reason for withholding the imperial was the preparation on her under parts for an imperial cert the cat needs to be presented in pristine condition. After speaking to exhibitor I was told she does not like to be bathed such a pity.
