2.Paton LAFREBELLA JEEPERS 18th June 2008 Breed 1

A very beautiful kitten with excellent type, the head being nicely rounded, small ears sitting low on head with full furnishings. Cheeks full and round with strong chin and full muzzle. Short broad nose with good break and black nose leather. Large bright copper eyes. A cobby shaped body with short thick legs and large round tufted paws. Tail short and bushy and balanced to body. A long thick soft coat which had been beautifully prepared and was of dense black colour sound and even colour. On such a lovely kitten it was such a pity to see a horrendous bite which was so undershot that she could not keep her tongue inside her mouth and was obviously my reason for withholding 1st place. She was delightful to handle.

IMPERIAL GRAND CHAMPION MALE

I hesitated before I awarded this certificate to this boy who I have judged before and seen better presented . He had signs of stud tail and some rather sparse areas in his tail also his feet could have been cleaner however he had such an air of arrogance about him that I decided to award certificate. Extremely laid back boy with a long strong body. Long tail reaching to shoulder blades Body supported by substantial legs with large paws which had tufts of fur between the toes. Medium length head with square muzzle and firm chin. Nose of uniform width with shallow curve to the profile. Large round eyes with slightly oblique set and spaced wide apart. Large tall nicely feathered ears. A nicely patterned coat with defined tabby markings.

This boy's profile appears to change each time I see him albeit it could be that he was rather short of coat today and today he was not so chatty as the last time I judged him and his profile needed to have a gentler curve. Medium length head with square muzzle. Large eyes set slightly oblique. Ears tall and wide at base with short tufts and well feathered. A long strong body supported by substantial legs with large paws with tufts of fur between the toes. A long tail which could have been a little more profuse....

A lovely girl whose deep blue eyes really stood out. Lovely birman type with round broad head. Ears spaced well apart and medium in size. Nose showing the desired slight dip to profile on medium length nose. Full cheeks and good chin with good bite. A good body shape and she had a lovely feel to her. Bushy medium length tail. Very defined blue matching points on a silky soft albeit a little shady coat. Tidy gloves and socks. Nicely matched tapering gantlets. Excellent temperament.

What a gorgeous face and expression such an appealing look. A girl of good weight but needs a slightly longer body. Broad rounded head with medium sized ears which had good width between them and faint thumb prints. Almost round blue eyes, Nose of medium length showing slight dip to the profile. Full round cheeks with well developed chin with spotted whisker pads... A beautifully prepared silky coat Even gloves and socks, nicely matched tapering gauntlets with all white sparkling. Medium length bushy ringed tail. Medium height legs showing broken stripes. She was adorable.

What happened to my lovely friendly boy from Edinburgh who was enjoying his day out he was so lovely there this time he wanted to eat me. A really massive boy of great strength who had been beautifully presented. Wonderful birman type, Medium, sized ears spaced well apart. Profile shows slight dip on medium length nose, almost round blue eyes. Well developed cheeks and good chin with good bite. Medium length bushy tail. Even gloves and socks. Almost matching gauntlets. A silk soft pale cream body with light red points, Medium height thick legs with large round paws. When I saw him later in the day he appeared a bit more settled. I understand this certificate makes him a grand well done.

I really loved the type on this young lady who had a beautiful long pale silky coat with a long ruff on a beautifully groomed and showing pale blue points contrast. Lovely head with medium sized ears spaced well apart, full cheeks and chin with level bite. Profile shows slight dip on medium length nose. Almost round eyes deep blue in colour. Good body shape with medium height thick legs. Tail bushy and well balanced. Snowy white tidy gloves, good socks, nicely matched tapering gauntlets. An absolute delight.

A gentle giant who I was pleased to see that his delicately coloured coat had been beautifully prepared this time. For such a big boy he had a little squeak for a meow. Excellent large body of rectangular appearance supported by substantial legs with large round and tufted paws. Long tail reaching to shoulder blades. Medium length head with square muzzle and firm chin with good bite. Nose of uniform width show shallow curve to the profile. Lovely expression to his pale amber eyes had had a slightly oblique set. large High cheek bones with fairly full cheeks. I would have liked the ears to be a little larger and taller. As previously mentioned super presentation and lovely to handle

Another big boy with very large body who would have benefited from a little more show preparation as his coat was a little open and he was shedding quite a lot of coat. Substantial legs and large paws with tufts of fur appearing from under the paw. Long tail with fairly profuse fur and reaching to shoulder blades. Medium length head with square muzzle and good bite. Shallow curve to profile on nose of uniform width. Eyes full and spaced wide apart with a slightly oblique set. Large tail ears however the right ear had some damage to it. Although a little nervous he was a very friendly boy.

Looks girls coat pattern gave the appearance of mackerel and was quite dull in colour. She had a triangular head shape but profile needed to be straighter, her ears needed to be larger as they were very small but did have long hairs out of the ears and also she was lacking in chin I was sorry but for a reserve grand she had too many faults.

1 IMP Ashworth IGR PR RAGALYN BLUE LAGOON Blue pointed bi colour ragdoll long time since I have seen this lovely boy who was always one of my favourites and as usual a pleasure to handle. A long muscular body of excellent weight with a long muscular body and broad chest. Well boned medium length legs with large, rounded and tufted paws. A silky coat predominately bluish white with evenly distributed white patches with bluish grey matching points. Long bushy tail which reaches to his shoulder blades and tapers slightly towards the tip. Broad head with flat plane medium sized ears that had slight tilt forward and were well furnished. Cheeks well developed as was the muzzle with a firm chin and level bite. Nose of medium length showing a gentle dip to the profile. Lovely large blue eyes which were well opened and set slightly oblique. Mask shows a balanced inverted V commencing at forehead and extending downwards covering his nose whisker pads and chins. His bib, chest, under body with all limbs white as always to my stewards delight he loves to have a cuddle.
