RES IMP GR PR Stables IMPR GR CH AND GR PR. CANNONA MERLIESIN chocolate Somali now 11 years old and looking good. A very rich coat colour with apricot base and dark chocolate ticking. The coat texture soft and fine. . Full brush to her tail which would have benefited from a little more length. An elegant firm body of good substance with long legs and oval shaped nicely tufted paws... I would have liked a fraction more length to her head as I found it a little short but she had lovely almond shaped eyes set slightly oblique, Ears set wide apart well cupped and furbished. Chin a fraction weak, Profile shows slight nose break. Top coat beautifully prepared but her tummy needed a little more grooming.

A large cobby body of very good substance. A long silky well prepared coat of sparkling white with rich red patches. Short thick legs with large paws all limbs patched except one front limb. Broad well rounded head

with neat little well furnished ears that were placed low on head. Short broad nose with full cheeks, firm chin and good bite/ I would have liked a bolder eyes shape and a deeper colour however he is now over 11 years of age so the colour could be fading a little. For his age he is in super condition.

Triangular head shape with long straight profile with strong chin and good bite. A very alert expression to her large oval eyes that were set oblique. Large ears that were wide at base and sitting high on head with long hairs out of the ears. An elegant long body supported by long legs the back being slightly longer than the front. Large round paws with tufts of fur between the toes. Long tail that reached to her shoulder blades. Woolly undercoat only just developing.
